

# We're stuck in the 1960s...HELP!

A \$30,000 fundraising campaign for the bricks and wiring in our Sanctuary

Our church outgrew the original 5th & Adams building and ground was broken on April 9, 1950 for a new facility on the “rural” west side of Olympia at Harrison and Perry Streets. Within a year and a week, the new sanctuary (now Luther Hall) was dedicated, built almost entirely with volunteer labor from the congregation members and friends, an estimated 4,000 hours.

By the mid 1960's the church had again outgrown its facilities and a larger brick and stained glass sanctuary was dedicated on Palm Sunday in 1968. Since then, we have been known as the “big brick church on the hill.”

But things have changed from the 1960s:

Downtown Olympia 1968

1968 Computer

1968 Phone

**However....our beautiful church on the hill has some 1960s holdovers and they must go!**

The sealer on our bricks is 49 years old!  
They must be resealed to maintain the structural integrity of our church.

Our Sanctuary lighting needs to be rewired so we can ditch the 750 watt lightbulbs and have new LED lighting!

**OVER**

**Please help achieve this important goal! It's about:**

The **structural integrity** of our church...

**safety** of our members and our community...

**cost savings** of LED bulbs...

**beauty** of new lighting...

and if funds allow...

**theater lighting** in the Sanctuary!

---

There will be many opportunities to support this campaign. You can bring this donation form to church and drop it in the offering plate. Forms will also be available at church starting Sunday, May 7.

I/We want to contribute the following amount \_\_\_\_\_

Name(s) \_\_\_\_\_

Address \_\_\_\_\_

\_\_\_\_\_

Email/Phone \_\_\_\_\_

I will fulfill this pledge with:

\_\_\_\_\_ A one-time payment on \_\_\_\_\_

\_\_\_\_\_ monthly payments in the amount of \_\_\_\_\_

You will also have the opportunity to pay online starting Sunday, May 7. Thank you!
